Agricultural Department.

CONDUCTED BY ALBERT CHAPMAN.

Farmers' Convention

We would suggest to the officers and directors of our State Agricultural Society, the great benefit to be derived from a Farmers' Convention of two or three days, at the time, and in connection with the annual meeting of the Society, with such an arrangement and previous announcement of programme, as shall devote the time of each day, appropriately divided, to such subjects as are of present and absorbing interest to the mass of far mers. Such a meeting would be pretty sure to secure an attendance to hear and take part in the discussion, as it is not possible to secure at the time of the autumnal shows, when each one is worn out with the excitements of a day of labor or

sight seeing.

The New Hampshire Agricultural So-Just before the dinner was inished (it is been a wonder it was not noticed before,) it I confess that when I heard this I was a wonder it was not noticed before, it I confess that when I heard this I was citety held such a convention last winter was discovered that the number at the ta-startled.
